

For technical specs, installation instructions, guidelines, and warranty information visit estoneworks.com/resources.

While most manufacturers of stone veneer are driven solely by product, our national company has extensive experience with skilled masons who install our product. Working directly with stone masons, seeing projects from concept to completion gives us an unrivaled understanding of what creates excellence in a finished stone product.

NORTHEAST SELECTION GUIDE

THE ONLY NATIONAL MANUFACTURER AND INSTALLER OF STONE VENEER

Founded by private investors with an entrepreneurial spirit and a long-term strategic vision, Environmental StoneWorks has been expanding its stone veneer solutions from coast to coast for the past three decades. Today, that same entrepreneurial spirit and vision is alive and well with five national manufacturing facilities strategically located across the U.S. to minimize freight costs for current markets served.

Environmental StoneWorks' styles and colors are Inspired by Nature and Crafted by Precision® by replicating natural stones selected from regions across the U.S. and molded into stone and brick veneer varieties. We manufacture all stone, brick, and accessories out of lightweight aggregate, Portland cement, iron oxide pigments, and proprietary additives.

The independent third party agency, IAPMO Evaluation Service, evaluated and approved the quality of Environmental StoneWorks' manufactured stone veneer utilizing the highest standards. Proud to be the first stone veneer manufacturer to meet the strictest acceptance criteria in the industry, Environmental StoneWorks' test results far exceed AC51 requirements. Environmental StoneWorks' IAPMO Evaluation Service report number IAPMO ER #386 is available online at www.iapmoes.org.

SHADE & COLOR

Environmental StoneWorks makes every effort possible to capture the natural colors of its stone by using state-of-the-art photography. To ensure the style and color you are choosing from this brochure is best for you, we recommend viewing a sample of your desired selection prior to ordering.

WARRANTY

Environmental StoneWorks warrants that its products shall be free from defects for a period of fifty (50) years from the date of purchase provided they are installed in accordance with the manufacturer's instructions and used on a structure that conforms to local building codes.

This Warranty covers only manufacturing defects in Environmental StoneWorks' products. It does not cover damage resulting from building settlement, wall movement, contact with chemicals, efflorescence, stain or paint, discoloration due to airborne contaminants, staining or oxidation. The Toughest Stone Out There! To review the warranty in whole visit stoneworks.com resource section.
